Improve safety and reduce congestion at the following intersections: 65 & Kelly Rd (higher priority for safety concerns), 65 and Mill St, and 65 & Main.	Need to improve capacity countywide and improve safety and reduce congestion at various intersections. Getting worse with traffic. Bus barn and administration building moved to Rt. 65 so there is more congestion along the route. There have been accidents at Truman. There is more tractor trailer and boat traffic. People aren't slowing down when entering the city. Bus traffic goes through 65 & Main. Need caution light for 65 & 73 so people know they are entering the city. Need passing lanes closer to population center heading north on 65.		Extend four-lane or install passing lanes countywide; <b>freight route</b> . At Kelly Rd intersection, 100-150 trucks/week to & from grain elevators and Hostetler; owners willing to cost-share. At Truman Rd intersection, 30 busses/day creates congestion and safety concerns. At 64 intersection, install traffic-calming measure; current flashing light and high volume of speeders causes accidents. South of MO32 in front of Signal in Buffalo needs median or poles in center lane to prevent accidents when used as traffic lane. Kelly Road as potential cost share. 65+Mill St widening or turn lane (especially west).
2	Dallas	Buffalo	Safety and Capacity Improvements	on Rte. 32	65 to new Azalea Rd.		Turn lane extension to Walmart; 3 lane from future Azalea to 65 on 32	Traffic delays while cars wait to turn into Walmart. Is a bit of a hill (going west) that limits sight of oncoming traffic. Getting worse with traffic. City is extending Azalea St to Rt. 32. This will increase traffic on 65 & 32 and 65 & Truman.		Potential cost-share with Walmart

4	Dallas		Safety & Capacity Improvements	on Rte. 32	Rt. 32 and sale barn		Sale barn traffic backs up 32 and creates significant congestion and safety concerns.	Each Saturday when the sale barn has sales, numerous trucks and trailers are backed up on 32 waiting to unload at the sale barn. Additionally, Mennonite kids tend to jump out of trucks and onto trailers to see what livestock is being brought to market. This creates a serious safety concern with oncoming traffic and the potential for a child to be struck by a vehicle. Especially bad on Saturdays during sales. Need accommodations for semi trucks and intersection improvements. Need shoulder widening.		
5	Dallas		Capacity Improvements	on Rte. D	from Tunas to Urbana		add shoulders; high school bus traffic; several accidents. Drivers frequently deviate on the curves.	A lot of Amish population are using this route. 4-6 ft shoulder would be very helpful.		Also freight route
